

WLVRN

RUTHLESS RELIABILITY

With 49 fewer parts the WLVRN has less tolerance stacking and more reliable shooting. The new optimized feed ramp design reliably feeds every available caliber.

INSANE SHOOTABILITY

The WLVRN boasts minimal recoil and muzzle rise. A redesigned bolt carrier reduces velocity and drag. And side-eject design minimizes gas use for a lighter recoil.

IMPROVED ACCURACY

The new WLVRN platform is 30% more accurate.

MOBILITY

The WLVRN is 1.87 lbs lighter than the MDRX. This reduction in weight was achieved by simplifying the design of the receiver.

DESERTTECH
UNRIVALED PERFORMANCE

WLVARN

RUTHLESS RELIABILITY & INSANE SHOOTABILITY

The WLVARN is Desert Tech's most reliable semi-automatic bullpup rifle platform. This all-new rifle system provides exceptional shootability and leverages a redesigned integrated receiver using 49 fewer parts combined with multiple chassis upgrades and technology inherited from the SRS and HTI rifle platforms. Compared to the MDRX, the WLVARN is up to 30% more accurate, up to 19% lighter, and continues to be a multi-caliber, modular platform that can be configured into a DMR, SPR, IAR, CQB, or RECCE rifle.

UNRIVALED, FULL SIZE PERFORMANCE IN A SBR SIZED RIFLE

- ▶ 30% More Accurate
- ▶ 100% ambidextrous
- ▶ Multi-Caliber Convertible
- ▶ 3.7" shorter than MK18
- ▶ Reload faster than an M4
- ▶ 16" & 20" barrel performance
