

INFINITY-16

STAY IN THE FIGHT

The INFINITY-16 is built for Tier-One operators, offering 80% increased capacity and 50% less reloads to maximize its full-auto capabilities, while maintaining reliability and compatibility with standard equipment.

Its match-grade barrel enhances accuracy significantly, supporting extended ranges with reduced recoil. A match duty trigger ensures a crisp, clean break for superior accuracy and control. A reliable bolt carrier guarantees dependable performance in extreme conditions.

The nitride barrel finish provides longer barrel life and maximum accuracy.

50% LESS TIME RELOADING
WITH A STANDARD 210 ROUND LOADOUT
